HIGH SCHOOL D.V.A.A. AMATEUR NIGHT NEWS

The Third Annual Amateur Night two-night show put on by the Drayton Valley High School Students Union was a slightly successful affair, as were those staged on the two preceding years. A lot of work on the part of the student body and teachers had gone into preparing the big program for the shows which were presented on Thursday, December 1st and Friday, December 2nd.

Staged in the large and fine new auditorium at Frank Maddock High School almost capacity crowds were registered on both nights. Master of Ceremonies for both shows was Howie Jansen, Jr.

On the program for the Thursday night show, were the following: Edward Summers - singing - "Just a Closer Walk With Thee" Elaine Hoff - singing - "How Far Is Heaven"; Ruffus and Lona Mai Combs singing "Johnny Be Good" Beatrice Delaney - singing - "You Talk Too Much"; Janet Huzar, Christina Hines, Alice Dion, Phillip Kennedy, Jean Noody and Jody Tojensen - singing - "You Don't Know"; Roberta Ellis - singing - "Seven Little Girls"; Elda Langer - Daphne Summers - Accordion Duet - "Forever and Ever"; Gordon Pickup singing - "That's an Irish Lullaby"; Grade Eight Play - Mrs. Gunning's Room - "The Saloon"; Gladys Creilly, Lois Kaeuwatin singing - "Santa Claus Is Coming to Town"; Audrey Gerzinger, Marlene Bouchard, Roy Ocar, Evelyn Kynock, singing - "Pick Me Up On Your Way Down"; Terry McManus - singing - "Goodbye Jimmy, Goodbye"; Donna Jenkins, Marilyn Boler - Piano Duet - "Five Foot Two"; Fern Combs, Florence Elliot, Gail Robins - singing - "A Mansion Over the Hill"; Grade Eight Play - Mr. Cymbaluk's Room - "Champion Football"; Marilyn Havel, Edna Starling, Julie Willner, Ricky Lewis - singing "Lipstick on Your Collar"; Gerald Mohr and Dwayne Swenfeld - choir - Gail Havel - Piano Com' on page 4 col. 4

Warburg Church to Hold Service

REVEREND ERIC JOSEPHSON

Reverend Eric Josephson, pastor of the Warburg Mission Covenant Church for the past 3-1/2 years will head a group of Christian women who will hold a service in Scout Hall, Drayton Valley, the evening of December 11th.

Mr. Josephson will be accompanied by the "Brotherhood" group from Malmo Covenant Church. This group is comprised of about a dozen men who will present duets, quartets and other types of gospel singing.

Rev. Josephson is a graduate of Covenant Bible Institute, in Wilkes Albert, Sask., with Com' on page 4 col. 4

The regular meeting of the Drayton Valley Athletic Association was held December 1, 1960, in the Recreation Room of the Town Hall.

There were nine members and four visitors present.

The meeting was opened with President Jack Falls in the chair and the minutes of the previous meeting were read. Ken MacInnis moved that the minutes be accepted as read, seconded by Chuck Dion. Carried.

Treasurer's Report:

The Treasurer reported a Bank Balance of \$698.04 in the General Account and \$583.50 in the Football Account.

Cle Olson made a motion that the bills be paid, seconded by A. Anderson. Carried.

FOOTBALL:

Harold Townsend reported that December 7th had been set as the date for the Football Banquet to be held in the Pan American Safety Hall. All the players are to be contacted by their coaches and informed of the date and time which will be at 7:30 p.m. Roger Nelson of the Edmonton Eskimos is to be in attendance to speak to the boys and show some

MR. EDWARD HINES

District old-timer Edward Hines was born in Jamaica Plain, just outside of Boston, Massachusetts. He graduated from O'Brien Public School there. He apprenticed to the printer - trade in Boston after getting out of school. Late in the year, 1918, he headed the call of adventure and went north to Montreal and where he joined the Canadian Army, signing up with the famous Black Watch Regiment, the 42nd. Battalion, 3rd. Division, as a gunner. He saw almost two years of army service in France and Belgium. He was in the historic World War I war-torn city of Mons when the war ended on November 11th, 1918. According to Mr. Hines they had been fighting all night, the night of the 10th, at the front lines, just outside of Mons, and the signing of the Armistice came as quite a surprise to the boys in the armistice. It was an even bigger surprise to the Belgian citizens of Mons, who went to bed on the night of the 10th with the Germans in possession of the streets of Mons and awakened on the 11th with Canadian and British troops parading down the centuries - old streets. Ed tells of the excitement of the good burghers as they threw back the shutters on their windows in joy over the Allied troops in the streets, replacing the Germans.

Many are the tales that Ed. can tell about early days in this area when they would walk the entire distance from here to the railroad at Rivestville. In a recent talk to the Lions Club at their regular dinner meeting Mr. Hines told how it would take them from ten to twelve hours to make the trip on foot to Rivestville, if they went right through, but there was a stopping house in the present Moon Lake district, and oftentimes they would stop overnight there and then go on to the village of Rivestville the next morning.

With the start of the oil boom here Ed. worked as right-of-way foreman for FINE for three and a half years, and then worked for Waddell Bros. for about a year and a half. After that he quit working out regularly to put his farm into shape, building a new house and improving the place generally.

Mr. Hines married Miss Daisy Bray of Rocky Rapids in 1929. Miss Bray's father was the first settler in this district, settling at Rocky Rapids about 1868. Mr. Hines has been in the area since 1921 when, with a partner, Fred Riddle, he worked along the Saskatchewan and Braxton rivers.

Mr. John Gawrak of Inter Urban Development Ltd. will be in on Friday, December 9th at the Building site.

YOU SHOULD HAVE SEEN THE ONE THAT GOT AWAY

In the beginning it was a question of who was the winner. For a while it must have been tough and whether man was fishing or fish was running. Looking around we assume man was out. At first man competed with the other anglers—today men compete with other men to develop nature's energy sources. In the process our standard of living has sky-rocketed.

Competition has helped Canadian achieve one of the world's highest living standards. Take the way it works in the oil business—Imperial Oil and hundreds of other companies compete to supply Canadians with oil. As a result, oil is available at reasonable prices wherever it is needed—and Canadians have turned to oil for more than half their energy needs.

ESSO IMPERIAL OIL LIMITED
...for 80 years Canada's leading supplier of energy

Interesting films on football. Trophies will also be presented to deserving boys. Lunch will be served.

Marion Palmer made a motion seconded by Ken Machan that in case of promised donations were not received by the Football Club in time to meet certain obligation that the Treasurer by given authority to issue a cheque covering this amount. Carried.

SENIOR BASKETBALL:
D. Olson was interested in obtaining a permanent time to play basketball at the school and it was thought that this could probably be arranged.

TOROBAGGING:
Jack Falls reported that a lawyer is drawing up an agreement for a ten-year lease, at a dollar a year, for the toboggan hill in the name of the Town of Drayton Valley, and he will approach Mr. Arthur himself in order of to obtain his signature. The reason for putting this lease in the name of the Town is to have the Town Insurance cover the Hill in question. The Ski Club was advised to make the same arrangement in order to gain the same insurance coverage.

FIGURE SKATING:
Mike Gormley reported that a meeting had been held last Friday, but they had still not come up with a qualified teacher. It was unanimously agreed to table this subject until next meeting.

BOXING:
It was reported that when the boys went to Edmonton Saturday they won three out of five bouts which was a very good average, especially considering that the two boys were having their first fight.

HOCKEY:
Red Boyles and Billy McNeill will be in Drayton Valley December 10th for the purpose of holding a coaches school. It will be a full afternoon session, including both classroom and ice instruction. Those interested were advised to sleep in touch with Mike or Jack for further details.

Ken Machan made a motion that the meeting adjourn. Seconded by Harold Townsend, Carried.

Two women were discussing their husbands in that indulgent tone appropriate to the subject. "Henry is perfectly helpless without me," said one. "I don't know what would become of him if I went away for a week."

"John" sighed the other. "The way I have to look after that man! Why, whenever he goes on business or down his neck, I always have to turn the needle for him."

S. Worthington made some inquiries with regard to obtaining additional space for Edmonton and also whom he would see with regard to reduced rental fees for the use of the gymnasium. He was advised to contact the Recreation Board in this respect.

Ken Machan made a motion that the meeting adjourn. Seconded by Harold Townsend, Carried.

GREEN ACRES

By DICK SOCKEN

HOW GOOD IS YOUR FEED? You can't tell what's in your feed by looking at it. Sometimes hay or silage that is excellent is low in protein or other elements. The feeding value of grain often varies considerably from year to year. But this can't be determined from its appearance.

Alberta livestock men are fortunate in that a very good feed testing laboratory is operated at the University of Alberta. By having your feed analyzed, you acquire the necessary information to prepare balanced rations. If your ration is low in protein, for example, you can easily increase the amount of protein by adding the proper amount of a suitable supplement.

But on the other hand, there is no point in feeding such supplement when your ration is already adequate for the type of stock you are feeding.

The feed testing laboratory will analyze any one of your home grown feeds. If you wish, you may send in samples of all the feeds you are using, and following analysis, a recommended ration will be described for you. Such a ration would make maximum use of home grown feed, but would include recommendations for the addition of various types of supplements if these are

required.

There is no need to "wonder" about your rations any longer. For only one dollar, for example, the feed testing laboratory will tell you exactly what is in your feed and will recommend on the basis of it. Full details and containers may be obtained from this office.

RABBITS AND TREES

There are many more rabbits this year than we have seen in previous years. Every time or ten years this happens, sometimes with the rabbit population reach top high numbers. Mice also are on the increase this year.

If the rabbit population is high in your area, it might be well to take steps to avoid any damage to your fruit, shade, or shelter-belt trees. Dave Steffox of the Pest Control Service points out that there is something you can do to keep these varmints away.

He stresses that tree damage by either rabbits or mice can be prevented by the proper application of paints and sprays. For this season, applications contain grease, oil tars, or organic solvents should be avoided.

Water emulsions of asphalt, however, are safe and can be mixed with such compounds as nicotine sulphate, cuprous oxide, or lime-sulphur. Mr. Steffox points out that these mixtures all from economical long-lasting coatings, suitable for painting the trunks and lower branches of the trees. In areas where deep or drifting snow is common, the repellent, to be

effective, must be applied to a height of at least two feet above the snow line of the trees.

When the situation calls for mouse control only, the line insecticide sprays toxaphene, and tin and endrin are recommended by Mr. Steffox. The area around the trees and between each tree should be thoroughly sprayed with any one of these insecticides.

Two women visiting London were inspecting a large building when they noticed the overtones bearing the name of the famous MCHEIV.

"There you are again," said one, "a better son with his name on the biggest building in London. You can't keep a gold mine down."

When the situation calls for mouse control only, the line insecticide sprays toxaphene, and tin and endrin are recommended by Mr. Steffox. The area around the trees and between each tree should be thoroughly sprayed with any one of these insecticides.

Two women visiting London were inspecting a large building when they noticed the overtones bearing the name of the famous MCHEIV.

"There you are again," said one, "a better son with his name on the biggest building in London. You can't keep a gold mine down."

He stresses that tree damage by either rabbits or mice can be prevented by the proper application of paints and sprays. For this season, applications contain grease, oil tars, or organic solvents should be avoided.

Water emulsions of asphalt, however, are safe and can be mixed with such compounds as nicotine sulphate, cuprous oxide, or lime-sulphur. Mr. Steffox points out that these mixtures all from economical long-lasting coatings, suitable for painting the trunks and lower branches of the trees. In areas where deep or drifting snow is common, the repellent, to be

effective, must be applied to a height of at least two feet above the snow line of the trees.

Lamont School Bus disaster has been initiated by the Chipman Lions Club in co-operation with the Alberta Association of School Bus Drivers.

Money collected by the organization will be used to defray expenses incurred by victims and their families as a result of the tragic collision of a school bus and a freight train near Lamont November 29th, in which 17 students and 23 adults were injured. The fund will be used for the provision of prosthetic for the injured, medical expenses that may extend for several years, and for funeral expenses.

Lodgepole News

The board of the Lodgepole, Brazeau and Cynthia School District will hold a meeting in the immediate future with the immediate future with the school principal to review all phases of school but operation especially with respect to precautions for safety.

Christmas is fast approaching. Everyone is getting ready for it. The commercial world is doing a "booming" business because of it. Above the roar and clamor of the streets of our busy lives comes the occasional voice that shouts, "But Christ back into Christmas!" Many who say this have little more in mind than remembering whose birthday it is. It is to be the remembrance of a past event, something that we can share for a day and the return to life as usual, quite unaffected by it all. There is far more in the birth of Christ than that.

Congregational and church bodies who follow the Church Year will know that we are now in the season of Advent. "Advent" means "coming." During the four weeks before Christmas, the Church thinks especially of the coming of Jesus Christ. His advent, or coming, means a far more than just a past event. The message of advent is "Behold thy King cometh into thee" (Matt. 21:9).

This coming means, first of all, His coming to the flesh, His birth in the stable at Bethlehem. The very Son of God became man and dwelt here on earth as a true man among men. He lived a perfect and holy life for us. He allowed men to call Him at last a son. There on that cross, He suffered the bitterest pain of hell. In order to free us from pain for all the sins of mankind from Adam down to the last person, we shall live.

Why did He do this? He did this because mankind is lost and condemned before God because of sin. "The soul that sinneth, it shall die" (Ezek. 18:20). This passes judgement on everyone of us. "No sin is unforgiven by the Law in the sight of God" (Gal. 3:11). Left to ourselves, we would all be lost forever. The Son of God became man to save us from this wretched estate.

His first coming was a great sorrow. Jesus Christ did not remain in the grave after His crucifixion, but He arose from the dead. The Heavenly Father in this way gave

This gay greeting and card and envelope are provided free with every Money Order.

The Chapel Hour

YOUR KING COMES TO YOU
By Rev. G.E. Mueller, Pastor of the Emmanuel Lutheran Church, Orayon Valley, Alberta.

His stamp of approval to what His Son had done, Jesus had truly blessed Christmas. Advent has a second meaning for us. Jesus is still coming to us today. The gift of forgiveness we He earned for all men is not forced on anyone. Mankind can refuse it. Countless numbers do. Forgiveness can be ours only if we accept Christ as our Savior and hope for eternal salvation. Forgiveness is ours only if we place our trust in Him. This saving faith comes to a man through the Gospel. Jesus Christ seeks to come to you today through the Word of God and the Sacraments. Every time you have an opportunity to hear or read the Word of God, your King is seeking to come to you. When you accept His love your hearts toward Him, His coming into the flesh at Bethlehem we long ago will do you good.

Advent has a third meaning. It means "Behold thy King comes again." We will come again to judge both the living and the dead. "We must all appear before the judgment seat of Christ" (2 Cor. 5:10). This same Jesus will call every last one of us to account. When this will be, we do not know. "Of that day and that hour knoweth no man" (Mark 13:32). One thing is certain, the day will come.

The true believer does not live in fear and dread of that day. He looks forward to that day with joy and glad anticipation as a child to Christmas. The return of Christ to judge means "going home." It means the beginning of eternal joys.

Christ has made it possible for all men to be able to have forward with joy to His second coming. He died for all. He paid for the sins of all. The gospel offers the forgiveness of sin to all. It is man's own faith if he neglects this great offer, if he refuses it and goes his own way.

Advent! The coming of Jesus! It can mean for the audience of the forgiveness of your sins, and eternal peace. It can give purpose and meaning to life. It can give you a solid rock.

which to hold in hours of darkness it can mean eternal life for you. If such is the case, then you will know the real and true meaning of Christmas. Yours will be a truly blessed Christmas.

On the other hand, if you do not find in Christ, then you have, though you have passed by His countless blessings, and Christmas will be of little benefit to you.

"Your King comes to you" are you receiving Him?

Bible Society Meeting

The Canadian Bible Society's representative was in Drayton Valley on Monday evening the 6th of December to present the work of the Bible Society. The meeting was held first, with a couple of hymns being sung. Prayer was offered by Rev. A. Wright followed by a Scripture reading by Dr. Steeves. Rev. Wright then introduced the Rev. John Sorechan, of the Bible Society.

Mr. Sorechan showed the film "The Fortunes of Livingstone" and following the showing of the film gave a resume of the Bible Society work in Africa. The Bible has now been translated into over 1,100 languages and dialects. Rev. Sorechan also spoke briefly on political conditions in the Congo, and in Africa generally. The speaker also mentioned the work in India and spoke briefly of political conditions there.

Following the service the Rev. Brown, closed with prayer. A number of those present then went over to the Anglican Rectory for a further informal discussion of the work of the Bible Society.

SENTENCE SERMONS
Many people wait faith the size of a mustard seed before attempting to move a mustard seed.

It seems incredible 15 million laws, and no improvement on the Ten Commandments.

Looking at Recreation

RECREATION LEADER - A PROFESSIONAL? Is a recreation director a professional man? In my mind the answer is "yes" and all people across the continent working in this field would answer the same way. The direction of leisure time activities is one of the most modern professions, yet, it is a profession in every sense of the word. It would seem that since this field of activity has been granted the status of a profession, the individuals working within its sphere would automatically be professionals. There is, however, a bit more to it than that.

To be a professional is something different than to belong to a profession. Those who are employed in the field of recreation as directors, leaders, teachers and administrators are very much desired that their field should be accorded the status of a profession. Potentially it indisputably can.

TOWN CALENDAR FOR DRAYTON VALLEY

On the request of the Drayton Valley Athletic Association and a few individuals interested in the promotion of recreation in one form or another I will be releasing a Town Calendar from now on. This calendar will cover all the information as to place, date and time of the different recreation activities taking place during the week following publication.

This method of publicizing a weekly schedule of recreational activities has proved to be very popular and highly beneficial in other communities and it should be an asset to the program in Drayton Valley.

I am starting this project with next week's schedule, that is Dec. 12 to Dec. 17, inclusively. I am making up this schedule from my own records and my personal knowledge of this town's recreation program.

I certainly hope that this calendar serves its purpose in this town, that it will keep the current recreation program constantly in the public eye and if possible cut down the possibility of interference in the case of presenting important events on the same night. If such a calendar is used to its full advantage it can be a great asset to community life. Time will tell.

TOWN CALENDAR

DECEMBER 12 - 18th

- Monday - Dec. 12: Town Hall - Recreation Board Meeting 8:00 P.M.

- Saturday Dec. 17: Scout Hall - Gym Class - 9:30 - 11:00 a.m.

games with the learned professional, but to deserve recognition as a profession its practitioners must act professionally. One may belong to a profession but yet, not act like a professional. What are the marks of a true professional?

The true professional, first of all, gives more thought to his work than is required merely to earn his compensation. His services are performed with indifference to monetary consideration and are of equal quality - the best of which he is capable - whether the remuneration is large or small. In fact his services are impeccable.

Secondly, the true professional constantly acquires new knowledge and develops new skills in the performance of his services. This calls for the open mind and the alert attitude to avail himself of the new recitations of the sciences and to

apply new knowledge to the practice of his profession. It also permits him to discard old and erroneous ideas and beliefs and to supplant them with the new ones.

Thirdly, the true professional must have fellowship with other of the same calling. Societies of professionals are not merely defensive and protective organizations, they are primarily propagandic in their purpose. These functions are less important than that of fellowship. Out of such fellowship comes a sharing of knowledge, a generation of inspiration, a spur the professional on to increasing achievement and satisfaction in service.

Fourthly, the professional believes in his high calling and contributes to its dignity without utterance as he can possibly assume. He has pride in his profession, his performance and in himself and he exemplifies quality in thought, action and appearance.

In short, "pro" in the field of recreation is of himself intelligently, improves his performance diligently, joins with others for mutual advancement co-operatively, and acts and looks the part of a professional - constant. A recreation director certainly belongs to a profession, however, he may or may not be a professional man - so much depends on the man himself.

BASKETBALL NEWS:

Things on the local basketball front seem to be in an exceptionally healthy state. News was received this week that the "Grand Malade" High School Pacers had ousted the Pembina Valley Senior Basketball League. The Pacers, organized less than a couple of months back have come along at an electrifying pace under the masterly leadership of Bob Barker. Personally I think the Blue and Gold are ripe for outside competition and win or lose they are going to give a tremendous account of themselves.

The schedule calls for the locals to play eight league games, four at home and four on the road. There are five teams in the circuit, Wildwood, Niton, Evansburg, Entwistle, and Drayton Valley. The Pacers play one game at Evansburg and three at Wildwood. In the Evansburg game they will be opposing the team from that town while at Wildwood they face the home team once and play both games with Niton on neutral grounds. At home Barker's boys will receive Wildwood on Jan.

DON'T FORGET!!!
JACKPOT BINGO
Every Wed. night at the
Community Hall at 8:00 p.m.
Sponsored by C.O.P.P.

5th, 6th & 7th, 1960, and both games with Entwistle will be played at the local gym on Jan. 27 and Feb. 3. The schedule opens Dec. 2 with Niton hosting Wildwood. There is an adjournment in activities during the Christmas season from Dec. 16 until Jan 6 when the Pacers invade Wildwood for a cage battle with Niton.

Here is the complete schedule of the Pembina Valley Senior Basketball League for the 1960-61 season

DATE	TEAMS	PLACE
Dec. 2	Wildwood vs Niton	Niton
Dec. 9	Drayton Valley vs Evansburg	Evansburg
Dec. 9	Niton vs Entwistle	Niton
Dec. 16	Wildwood vs Entwistle	Wildwood
CHRISTMAS HOLIDAYS		
Jan. 6	Niton vs Drayton Valley	Wildwood
Jan 6	Entwistle vs Evansburg	Evansburg
Jan 13	Wildwood vs Drayton Valley	Drayton Valley
Jan 20	Evansburg vs Wildwood	Wildwood
Jan 27	Drayton Valley vs Entwistle	Drayton Valley
Jan 27	Evansburg vs Niton	Evansburg
Feb. 3	Wildwood vs Niton	Drayton Valley
Feb. 3	Drayton Valley vs Entwistle	Drayton Valley
Feb. 10	Niton vs Entwistle	Niton
Feb. 10	Drayton Valley vs Evansburg	Drayton Valley
Feb. 17	Wildwood vs Entwistle	Wildwood
Feb. 24	Niton vs Drayton Valley	Wildwood
Feb. 24	Entwistle vs Evansburg	Evansburg
Mar 3	Wildwood vs Drayton Valley	Wildwood
Mar 10	Evansburg vs Wildwood	Evansburg
Mar	Evansburg vs Niton	Niton

No definite dates have been set for playoff games as yet, however, they will be held in late March or early April. The entry fee for each play-off will be \$5.00 per team. All scheduled league games will be started at 7:00 p.m. sharp. Admission charges in every case will be as follows:
Adults - .25¢
Children - .10¢

Next Friday evening the Pacers hit the court for the first time in this season - meeting the Evansburg team in Evansburg. I would like to take this opportunity to congratulate Bob Barker on the very fine job he has done thus far and to wish Bob & his boys the very best of luck in their new venture.

Still with basketball, Ron Bensinger and Don Mettuck done a very fine job instructing girls' basketball during the past couple of months. Unfortunately Mattie has left the Valley to seek

REPORT FROM PARLIAMENT HILL

By Hugh M. Homer, M.O., M.P.
Jasper-Eaton
House of Commons
Canada

Dr. Homer, your Member of Parliament, reports:

On November 17th Parliament opened and the Government presented its Speech from the Throne. It is one of the greatest ever, and it is important to us because of the direct help to our rural areas and small towns. Here are the highlights:

Establishment of a productivity council.

Refinancing of the Columbia River power and flood-control agreement with the United States.

Construction of a Canadian National Railway line to the new mining area near Montserrat Lake in Northwestern Quebec.

A detailed survey of the western route for a railway from Northern Alberta to base-metal deposits at Pine Point on Great Slave Lake.

Means to encourage Canadian youth to amateur athletics.

Amendments to the Veterans Act to provide educational increases in pensions payable to veterans or their dependents.

Legislation to enable the Federal Government to join provincial authorities and local groups in rural rehabilitation and development programs.

Government guarantees for bank loans to small businesses to finance additional and improvements in premises and equipment.

Amendments to the National Housing Act to improve terms of mortgage lending.

Authority for Central Mortgage and Housing Corp. to buy, improve and rent existing homes in urban redevelopment areas in partnership with the provinces.

Legislation to authorize CMHC loans covering up to two-thirds the cost of projects to correct community water-pollution problems, with the Government contributing 25 percent of any loans spent on work done.

We are now operating our FLYING TRAINING SCHOOL IN DRAYTON VALLEY

GROUND SCHOOL EVERY MONDAY AND THURSDAY EVENING FROM 7 TO 9 P.M.
ALL STUDENTS ARE REQUESTED TO TURN OUT TO THE GROUND SCHOOL AND BOOK THEIR FLYING HOURS.

THERE IS ROOM FOR MORE STUDENTS.

GIFTS FOR THE MENTAL PATIENTS

The Calgary Branch, Canadian Mental Health Association is soliciting Christmas gifts for patients in the mental hospitals of Southern Alberta. These gifts should preferably be new and sent to the special collection centre set up by the Mental Patients Gifts Committee, at 1007 - 16th Avenue N.W., Calgary. The right gift for the right patient will be selected by a volunteer committee working with hospital personnel.

Suggested gifts for a woman might be aprons, cosmetics, cotton dresses, hand bags, purses, permanent wave kit, sewing box and materials, non-slip slippers and for men, gifts might include hats or caps with ear-muffs, ear-muffs, hair cream or shaving cream (in tubes or squeeze bottles), toothpaste and brushes, cigarette cases or tobacco pouches, pipes, etc.

This year, remember the forgotten patient too. Your gift should reach the collection centre by December 17th, to allow time for sorting and selection.

C.W.L. MEETING

The monthly meeting of St. Anthony's Catholic Women's League was held at the home of Mrs. K. Peterson with 8 members and 2 guests present.

It was decided to send \$15.00

GLORIA'S CAFE

OPEN 24 HOURS.
In the B/A Service Station, Phone 18, Drayton Valley.

to \$20.00 worth of toys to the hospital for Christmas.

Doug Lee was the lucky winner of the \$25.00 food hamper raffled at the Tea and Bake Sale held December 3rd.

A Thank You note was received at the Station of Service for the donation sent them.

A drive for clothing for the Marian Centre will be started in January.

A donation of \$25.00 is to be sent to the Marian Centre for Christmas.

The meeting was followed by a social evening in the Performing Arts Shop and a good time was had by all.

"That's a darling hat," said the customer. "I don't want to look too young either every time I take it off."

"That's a darling hat," said the customer. "I don't want to look too young either every time I take it off."

Cont' from page 10 Col. 8

ice to an outdoor session. All in all it should be a very interesting and informative afternoon for our prospective hockey coaches, one that nobody will want to miss. There will be no charge and it is really a golden opportunity especially with the personable people in charge, there won't be a dull moment. So we expect to see you out full force next Saturday afternoon.

HOCKEY IN THE AIR

With the cold snap during the past few days the process of preparing the local hockey rink has been speeded up considerably. Within days we should be out, there with the blades and ready to go at every level of puck-chasing.

The intermediate team under Andy Anderson and Bill Adams are making final preparations and will be ready to start practice as soon as ice is available. In the domain of "Minor" hockey the estates are not coming in as fast as I would like them, however, I hope that by this week-end every boy planning to play hockey at PennWes, Bantam Midget or juvenile levels will have registered with me. We plan a coaches' meeting for early next week and at that time we will be picking teams from the entries received to that date. So boys if you desire to play hockey during the coming season, I would strongly advise that you register at the Recreation Office before December 15, 1960. Right now, because of the late date, the short ice season and the necessity to draw up some kind of a program and schedule for the season, I cannot promise you anything if you register after that date.

As in other activities in this community, leadership in this field will be no problem. We have already a good number of coaches interested in furthering Canada's national sport among our very fine youth. With so much adult enthusiasm I look forward to a comparatively short but a tremendously successful hockey season. Finally, I am to have it on a pat with foot-hall - - - - - Let's wait and see!

AROUND TOWN:

Thursday evening December 15, is our next Athletic Association Meeting. These meetings are open to the public and if you would like to have a clearer idea of what the Drayton Valley Athletic Association is and what they are doing for our youngsters, do feel free to drop in and ask any questions you might have in mind - - - - - Recently I was asked if I ever made a facility survey of Drayton Valley. I most certainly did. Something like 100 hours was spent on the actual survey of the compiling of the results and the preparation of a report and recommendations. A copy of this report can be read at my office any time you wish.

In a beauty shop just the group alone would curl your hair.

B.P.O. ELKS ANNUAL INSTALLATION OF OFFICERS

On Tuesday, November 22, at an impressive ceremony attended by more than 40 members, the wives of the Officers of the Lodge were

installed for the ensuing year.

D. D. G. E. R. Cliff McDougall of Ennsville Lodge conducted the installation, assisted by past E. R. Leo Jensen, Ennsville Lodge, and Past President Alta. Elks Association - Bro. Harvey Switzer, Elks Lodge, and in the absence of Honored Lady Elsie McManus, Past Honored Lady Gladys McManus, of the local O. O. R. Purple, assisted by her installation team, presented the Officers for installation.

Officers for the ensuing year are: Immediate Past Exalted Ruler - Bro. D. L. Rand. Exalted Ruler - Bro. F. E. Thompson. Leading Knight - Bro. L. J. Loyal Knight - Bro. B. Simon. Lecturer - K. J. O'Brien. Treasurer - Bro. A. Lloyd. Secretary - Bro. Bob Fergie. Historian - Bro. Bill Lockwood. Chaplain - Bro. L. Miller. Squire - Bro. L. Sharkey. Inner Guard - Bro. E. Donnelly. Tyler - Bro. Don Chinko. 1st. yr. Trustee - Bro. G. McMurra. 2nd. yr. Trustee - Bro. Bill Copeman. 3rd. yr. Trustee - Bro. J. Bwanio.

Following the installation of Buller's supper - - - dancing was enjoyed by all.

"You think is much of your own golf game that you don't even see, wonder when we were married, complained his wife.

"Of course I do, honey," he responded but "it was the day I took that golf bag out."

"I'd like to bring Bill home to dinner tonight," the man telephoned his wife.

"To dinner tonight?" she screamed. "You know you know that the cook just left. I've got a cold, baby's cutting his teeth, the furnace is broken and the banker won't give us any more credit until we pay up."

"I know," the husband interjected quietly. "That's why I want to bring him. The poor fool is thinking of getting married."

"What do you think of the coach, lady?"

"I'd say, thank goodness, you got divorced."

"In beginning to suspect," said the bridegroom, "that your mother has a low opinion of me."

"Whatever makes you think that?" asked the bride.

"Those towels she gave us are marked 'hers' and 'his'."

GREEN ACRES

By DICK ROCKING

HOW GOOD IS YOUR FEED?
You can't tell what's in your feed by looking at it. Sometimes hay or straw that is excellent is low in protein or other elements. The feeding value of grains often varies considerably from year to year. But this can't be determined from its appearance.

Alberta livestock men are fortunate in that a very good feed testing laboratory is operated at the University of Alberta. By having your feed analyzed, you acquire the necessary information to prepare balanced rations. If your ration is low in protein, for example, you can easily increase the amount of protein by adding the proper amount of a suitable supplement.

But on the other hand, there is no point in feeding such supplement when your ration is already adequate for the type of stock you are feeding.

The feed testing laboratory will analyze any one of your home grown feeds. If you wish, you may send in samples of all the feeds you are using, and follow-up analysis, a recommended ration will be described for you. Such a ration would make maximum use of home grown feed, but would include recommendations for the addition of various types of supplements if these are

required.

There is no need to "wooder" about your rations any longer. For only one dollar per sample, the feed testing laboratory will tell you exactly what is in your feed and will recommend on the best use of it. Full details and containers may be obtained from this office.

RABBITS AND TREES.

There are many more rabbits this year than have been seen for some time. Every time or two years this happens, sometimes with the rabbit population reaching huge numbers. Mice also are on the increase this year.

If the rabbit population is high in your area, it might be well to take steps to avoid any damage to your fruit, shade, or shelter-belt trees. Wade Steffen of the Pest Control Service points out that there is something you can do to keep these varmints away.

He stresses that tree damage by either rabbits or mice can be prevented by the proper application of paints and sprays. For this season, applications containing greases, oils, tars, or organic solvents should be avoided.

Water emulsions of asphalt, however, are safe and can be mixed with such compounds as nicotine sulphate, cuprous oxide, or limonene. Mr. Steffen points out that these mixtures all from economical long-lasting coatings, will be for painting the trunks and lower branches of the trees. In areas where deep or drifting snow is common, the repellent, to be

effective, must be applied to a height of at least two feet above the snow line of the trees.

When the situation calls for mouse control only, the line insecticide sprays toxaphene, aldrin and endrin are recommended by Mr. Steffen. The area around the trees and between each tree should be thoroughly sprayed with any one of these insecticides.

Two women visiting London were inspecting a large building when they noticed the confusion bearing the date in Roman capitals: MCMVI.

"There you are again," said one, "a brighter son with his name on the biggest building in London. You can't keep a good man down!"

LAMONT DISASTER FUND

for the victims of the

Lamont School bus disaster has been initiated by the Chipman Lions Club in co-operation with the Alberta Association of School Bus Drivers.

Money collected by the organization will be used to defray expenses incurred by victims and also to fund a fund for the relief of the tragic collision of a school bus and a freight train near Lamont November 29th, in which 17 students died and 23 were injured. The fund will be used for the provision of scholarships for the injured, medical expenses that may extend for several years, and for funeral expenses.

Contributions to the campaign

may be sent to the following:

I.M. Hake, Secretary, Chipman Lions Club, Chipman, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

The Chapel Hour

YOUR KING COMES TO YOU
By - Rev. G.E. Mueller,
Pastor of the Emmanuel Lutheran Church
Drayton Valley, Alberta.

Christmas is fast approaching. Everyone is getting ready for it. The commercial world is doing a "booming" business because of it. Above the roar and clamor of the streets of our busy lives comes the occasional voice that shouts, "That Christ back into Christmas!" Many who say this have little more in mind than remembering whose birthday it is. It is to be the remembrance of a past event, something that we can observe for a day and the rest of the year in a quiet, unobtrusive way. It is far more in the birth of Christ than that.

Congregations and church bodies who follow the Church Year will know that we are now in the season of advent, "advent" means "coming." During the four weeks before Christmas, the Church thinks especially of the coming of Jesus Christ. His advent, or coming, means a far more than just a past event. The message of advent is "Behold thy King cometh in the flesh" (Matt. 24:26).

The evening meal, for one, is his coming to the flesh. His birth in the stable at Bethlehem. The very son of God in the flesh. God loved and loved him so much as to make him one of us. He lived a perfect and holy life for us. He allowed us to put him at last in a cross. "Turn on that cross, he fulfills the broken promises of hell, it roars at heart in punishment for all the sins of mankind from Adam down to the last person who has lived."

Why did he do this? He did this because mankind is sin and corruption before God because of sin. "That child that smelt, it said" (Ezek. 16:20). This passage is meant to everyone of us. "The sun is justified by the law in the light of God" (Gal. 3:11). Left to ourselves, we would all be lost forever. The Son of God became man to save us from this wretched state.

His first coming was a great event. Jesus Christ did not remain in the grave after His crucifixion, but He arose from the dead. The Holy Spirit came in this way.

His first coming was a great event. Jesus Christ did not remain in the grave after His crucifixion, but He arose from the dead. The Holy Spirit came in this way.

His first coming was a great event. Jesus Christ did not remain in the grave after His crucifixion, but He arose from the dead. The Holy Spirit came in this way.

His first coming was a great event. Jesus Christ did not remain in the grave after His crucifixion, but He arose from the dead. The Holy Spirit came in this way.

His first coming was a great event. Jesus Christ did not remain in the grave after His crucifixion, but He arose from the dead. The Holy Spirit came in this way.

His first coming was a great event. Jesus Christ did not remain in the grave after His crucifixion, but He arose from the dead. The Holy Spirit came in this way.

His first coming was a great event. Jesus Christ did not remain in the grave after His crucifixion, but He arose from the dead. The Holy Spirit came in this way.

His stamp of approval to what His Son had done. Jesus had truly blessed Christmas.

Advent has a second meaning for us. Jesus is again coming to us today. The gift of forgiveness will be earned for all men is not forced on anyone. "Mankind can refuse it. Countless numbers do. Forgiveness can be seen only if we accept Christ as our Savior and hope for eternal salvation. Forgiveness is ours only if we place our trust in Him. This saving faith comes to a man through the Gospel. Jesus Christ seeks to come to you today through the Word of God and the Sacraments. Every time you have an opportunity to hear or read the Word of God, your King is seeking to come to you. If you accept Him into your hearts today, His first coming into the flesh at Bethlehem in love will do you good.

Advent has a third meaning for us. Jesus Christ comes again. He will come again to judge the living and the dead. "We must all appear before the judgment seat of Christ" (2 Cor. 5:10). This same Jesus will call every one of us to account. "When I shall be, we do not know. Not that day and that hour" (Mark 13:32). One thing is certain, the day will come.

The true believer does not live in fear and dread of that day. He lives forward to that day with confidence and joy. He lives with the assurance that he will be able to meet him as a friend. The return of Christ to judge us is a "good thing." It means the beginning of eternal life.

Christ has made it possible for all men to be able to meet him as a friend. He died for all. He paid for the sins of all. The Gospel offers the forgiveness of sin to all. It is not his own fault if he neglects this great offer, if he refuses it and goes to his own doom.

Advent! The coming of Jesus! It can mean for you the assurance of the forgiveness of your sins, and eternal peace. It can give purpose and meaning of life. It can give you a new life.

Advent! The coming of Jesus! It can mean for you the assurance of the forgiveness of your sins, and eternal peace. It can give purpose and meaning of life. It can give you a new life.

which to hold in hours of darkness it can mean eternal life for you. If such is the case, then you will know the real and true meaning of Christmas. Yours will be a blessed Christmas.

On the other hand, if you do not find in Christ, your Savior, then you have passed by His countless blessings, and Christmas will be of little benefit to you.

"O King comes to you!"

are you receiving Him?

Bible Society Meeting

The Canadian Bible Society's representative was in Drayton Valley on Monday evening the 28th of November to present the work of the Bible Society. The meeting was held first, with a couple of hymns being sung. Prayers were offered by Rev. A. Wright followed by a Scripture reading by Dr. Steeves. Rev. Wright then introduced the Rev. John Sorochan, of the Bible Society.

Mr. Sorochan showed the film "The Footprints of Livingstone" and following the showing of the film gave a resume of the Bible Society work in Africa. The Bible has now been translated into over 1,100 languages and dialects. Rev. Sorochan also spoke briefly on political conditions in the Congo, and in Africa generally. The speaker also mentioned the work in India and spoke briefly of political conditions there.

Following the service the Rev. Brown, closed with prayer. A number of those present then went over to the Anglican rectory for a further informal discussion of the work of the Bible Society.

SENTENCE SERMONS..... Many people want faith the size of a moult in before attempting to move a mustard seed.

It seems incredible 135 million laws, and no improvement on the Ten Commandments. A grudge is too heavy a load for anyone to carry.

MILLIONS ARE LISTENING!
Tune in on the Old Fashioned Revival Hour - and hear--
Charles E. Feller
present the word of God in this timely subject. Hear your favorite old hymns of the faith sung by the celebrated choir over the ABC Network and affiliated stations

LOOKING AT RECREATION

Continued from page 18 Col. 8

ice in an outdoor season. All in all it should be a very interesting and informative afternoon for our prospective hockey coaches, one that nobody will want to miss. There will be no charge and it is really a golden opportunity especially with the personable Polie in charge, there won't be a dull moment. So we expect to see you our first fence next Saturday afternoon.

HOCKEY IN THE AIR
With the cold snap during the past few days the process of preparing the local hockey rink has been speeded up considerably. Within days we should have out there with the blades and ready to go at every level of puck-chasing.

The intermediate team under Andy Anderson and Bill Adams are making final preparations and will be ready to start practice as soon as ice is available. In the domain of "Minor" hockey the entries are not coming in as fast as I would like them, however, I hope that by this week-end and every boy planning to play hockey at PaeWen, Bantam Midget or Juvenile levels will have registered with me. We plan a coaches' meeting for early next week and at that time we will be picking teams from the entries received to that date. So boys if you desire to play hockey during the coming season, I would strongly advise that you register at the Recreation Office before December 15, 1960. Right now, because of the late date, the short ice season and the necessity to draw up some kind of a program and schedule for the season, I cannot promise you anything if you register after that date.

As in other activities in this community, leadership in this field will be no problem. We have already a good number of coaches interested in furthering Canada's national sport spring our very fine youth. With so much adult enthusiasm I look forward to a comparatively short but a tremendously successful hockey season. Finally, I aim to have it on a par with football. —Let's wait and see!

AROUND TOWN:
Thursday evening December 15, is our next Athletic Association Meeting. Those meetings are open to the public and if you would like to have a clearer idea of what the Drayton Valley Athletic Association is and what they are doing for our youngsters, do feel free to drop in and ask any questions you might have in mind. —Recently I was asked if I ever made a facility survey of Drayton Valley. I most certainly did. Something like 100 hours was spent on the actual survey the compiling of the results and the preparation of a report and recommendations. A copy of this report can be made at my office any time you wish.

In a hockey shop just the gear you would want your hair.

Following the installation of Buffet supper—dancing was enjoyed by all.

"You think in the back of your head you can forget them. This year a record fifty billion will be spent by some 82 million vacationing Americans. Worldwide, another 40 million travelers will visit places outside the borders of their own countries, and spend more than \$4 billion.

With so much road-building, the pockets of people on the move, many a trip is bound to be marred by money mishaps.

And most of these losses can be avoided, say the experts at American Express, world-wide specialists in getting people and money safely from one place to another.

While traveling, men should carry their wallets in inside pockets and remember not to flash big wads around. Women should hold tight to their bags at all times. And while it may sound corny, don't let a glib-talking stranger sell you the Leaning Tower of Pisa. London Bridge, or a guide excursion to St. Peter's at Rome. Don't laugh—glibbie travelers fall for such swindles every year.

When checking into a hotel make it a habit to lock your valuable in the office safe. It doesn't cost a penny. Avoid carrying a lot of cash. It's always convenient to carry your money in the form of travelers' checks. You have in English, the language that most have in common.

A stream in California is known as the West Fork of the South Fork of the North Fork of the San Joaquin river.

World Champion

What makes a world champion is he really much different from the

average man? Scientists throughout the world have studied athletes and generally have found that the champion is not very much different at all.

The athlete, of course, is in peak physical condition. His reflexes may be better than yours—but as a rule, he is not

strenuous of sports. The body appears to modify certain functions during periods of physical stress, and subsequently returns to normal.

Yet, it's smart to base your participation in sports upon your physical limitations. Sports activities should be tailored to the individual and be selected in consultation with your physician.

But, if you are sports-minded, go right ahead; you won't burn yourself out. In a study at Cambridge University, it was discovered that participants lived as long as spectators.

Too, counting the pleasure and fun you can get from athletics, sportsmen appear to be living a far happier and more vigorous life than those who merely sit on the sidelines.

Additional set of muscles—"Athlete's heart" is a fallacy. Sir Adolphe Abrahams, honorary medical officer of the British Olympic Athlete Union, found there was no valid evidence of "athlete's heart" in Olympic contestants and they were certainly accustomed to violent exercise.

Other physicians have determined that the healthy heart can withstand the load placed upon it by the most strenuous of sports. The body appears to modify certain functions during periods of physical stress, and subsequently returns to normal.

But, if you are sports-minded, go right ahead; you won't burn yourself out. In a study at Cambridge University, it was discovered that participants lived as long as spectators.

Too, counting the pleasure and fun you can get from athletics, sportsmen appear to be living a far happier and more vigorous life than those who merely sit on the sidelines.

Additional set of muscles—"Athlete's heart" is a fallacy. Sir Adolphe Abrahams, honorary medical officer of the British Olympic Athlete Union, found there was no valid evidence of "athlete's heart" in Olympic contestants and they were certainly accustomed to violent exercise.

Other physicians have determined that the healthy heart can withstand the load placed upon it by the most strenuous of sports. The body appears to modify certain functions during periods of physical stress, and subsequently returns to normal.

Yet, it's smart to base your participation in sports upon your physical limitations. Sports activities should be tailored to the individual and be selected in consultation with your physician.

Travel Money Tips

If you have any doubts about travel money, a major industry you can forget them. This year a record fifty billion will be spent by some 82 million vacationing Americans. Worldwide, another 40 million travelers will visit places outside the borders of their own countries, and spend more than \$4 billion.

With so much road-building, the pockets of people on the move, many a trip is bound to be marred by money mishaps.

And most of these losses can be avoided, say the experts at American Express, world-wide specialists in getting people and money safely from one place to another.

While traveling, men should carry their wallets in inside pockets and remember not to flash big wads around. Women should hold tight to their bags at all times. And while it may sound corny, don't let a glib-talking stranger sell you the Leaning Tower of Pisa. London Bridge, or a guide excursion to St. Peter's at Rome. Don't laugh—glibbie travelers fall for such swindles every year.

When checking into a hotel make it a habit to lock your valuable in the office safe. It doesn't cost a penny. Avoid carrying a lot of cash. It's always convenient to carry your money in the form of travelers' checks. You have in English, the language that most have in common.

This Friday night the Larist Gymkhana Club will hold its first social event, a novelty dance in the Rocky Rapids Community Hall. Admission will be by ticket only.

The aims of the Larist Gymkhana Club are in part: To promote an interest in horses and horsemanship. To develop good fellowship and sportsmanship. To construct and maintain Club gymkhana grounds.

We have quite some very definite goals and hope to be able to hold a straight and successful course towards them. Our first goal will be to have fun.

Secondly, to teach horsemanship to participate properly in Gymkhana events. Thirdly, to learn thoroughly the rules and equipment that

should be used in each event. Fourthly, to participate in local and provincial shows, where there are gymkhana events, try to win them.

Fifthly, to promote gymkhana interest in every way possible.

Our programme for the winter will include sleigh rides, skating and toboggan parties, pot luck suppers, dances and general get togethers. In the spring when our riding events get started, there will be trail rides, breakfast rides and weekly gymkhana events, with novelty races, barrel racing, pole bending, stake racing etc. Five of these weekends will be competitive scoring events at which points are scored by the members taking part and a final award of events at which trophies will be awarded on the points scored.

It is our intention to start classes in leathercraft the first of the year, for all those interested in making their own halters, bridles, breast collars etc.

Classes will also be conducted in horsemanship, care of the horse etc. these classes will be primarily for the younger members and beginners.

There is still a great need for associate members in the club, they don't have to ride or own a horse, just have an interest in seeing better horsemanship promoted in the area. They can

take part in all our breakfast rides etc., act as timekeepers, judges, scorekeepers and many more such little jobs that will allow the active members to take part in the events.

Come on Parents, get behind our Club. See your children have a Good Time.

Remember: Friday - Dec. 9th Dance at Rocky Rapids Hall by ticket only.
Sunday - Dec. 11th, Riding events at Gymkhana Grounds north of Rocky Rapids (weather permitting)
Wednesday - Dec. 14th General Meeting 8:00 p.m. Rocky Rapids Hall, transportation will be provided from Tolichards.

Membership tickets will be available at the Dance, Friday night.

MR. ED, HINES
Cont' from page 1 Col. 5

Bray had come up the Saskatchewan as far as the rapids, near Rocky Rapids in a pretty-wholesale boat from Edmonton, bringing some farm machinery with him.

Mr. and Mrs. Hines have seven children: four boys, George, Pat, (Edie), Danny and young Tommy, and three girls, Mrs. Rose Bradley, Christina and Sylvia.

Ed. is a member of the Drayton Valley Legion. He has been a

member of the F.U.A. since about 1935, and has been president of that group several times. He is director of the Rural Electrification group. He has been Justice of the Peace for many years. He is a member of the Anglican Church in Drayton Valley.

Japan's whaling fleet to the Antarctic in 1960-61 is the largest it has ever sent—145 vessels in seven flotillas.

CHAMBER OF COMMERCE MEETING

Members of the Drayton Valley Chamber of Commerce met in the Royal Bank Building on the evening of Thursday, December 8th to formulate plans for the conducting of the Christmas decorations contest, among other items of business.

The Christmas decorations contest was run last year, also and proved quite popular. Prizes set for the decorations awards were as follows: 1st. Prize, \$15.00; 2nd. Prize \$10.00; 3rd. Prize \$5.00. This is for the residential sections of the town. Local ministers will be judges of the decorations.

A Christmas tree will be put up this year again between the Bakery and the SSS Variety Store.

Group Insurance was discussed and the matter was tabled for a future meeting. Also discussed was the possibility of holding a Technical Institute within the Town of Drayton Valley. Individual invitations will go to various heads of oil companies and service company representatives to be present at the meeting on Thursday, December 15th.

A nomination committee was set up to bring in nominations for officers of the Chamber of Commerce for the ensuing year. Date of the Annual Meeting for the Chamber has been set for Thursday, January 12th, 1961.

Closing hours for retail merchant came in for some discussion just before the meeting closed.

Lions Regular Meeting

Drayton Valley Lions held their regular Tuesday dinner meeting December 6th, in the Cardium Room with a fair turnout of members, and two visitors present. Visitors on hand were: Bob McGregor, of Kan's Men's Wear, and Ron Parry, of the Royal Bank and Ed. Hines of Violet Grove.

The Tall - Twister wandered around, making his customary nuisance of himself.

Highlight of the evening was a very interesting talk given by Mr. Hines of the old days in this district. Following a brief time of reminiscing Mr. Hines asked the boys to ask any questions they wished to, and they did...asking of various phases of life as it was lived in this raw, wilderness, pioneer settlement preceding the Second World War.

Actually, Mr. Hines did not make life sound too bad, as the early settler lived it here. It was not easy, but it also had many compensations that offset many of the difficulties.

PEMBINA NEWS ADVERTISER

Vol. 5 No. 48 December 15, 1960. Playford, Publisher. Box 120, Drayton Valley, Alberta.

M.P. Recommends Technical School For D.V.

Speaking to a motion on the floor of the House on December 5th, for authorization for the Minister of Labour to enter into agreements with provincial governments for establishment of technical and vocational training schools, Dr. Hugh Horner, Member of Parliament for Jasper-Edmonton constituency, of which this district is a part, made the following very appropriate speech (Mr. Horner was also commenting on the speech of the Member immediately preceding him).

"We have just heard a new definition of socialism. I thought when listening to the hon. member that what he gave us really sounded just like a school teacher's definition. However, now that we have this new party definition we can have both free enterprise and socialism together. Unfortunately, this is not true. This is just the socialist's way of gaining power, and then the rest of the restrictions of individual freedom have to come into play, because this is the only way the socialist can operate a planned economy - by having complete socialism, and it does not really matter very much whether you call it socialism, communism, or anything else.

MISS GERMAINE ST. LOUIS Photo by Curt's Studio

Another A.G.T. personality is Miss Germaine St. Louis. Germaine was born in Picardville where her dad was farming. She is of French Canadian descent. She attended school in Picardville. For four years she clerked and was assistant manager in a grocery and dry goods store in Picardville, and then she joined on with Alberta Government Telephones and in 1953 she went to Westlock where she worked for five years. The last year she was Assistant chief operator. In April, 1958 Miss St. Louis was transferred to Drayton Valley where she became chief operator.

Germaine likes to travel during vacation periods and has visited Florida and all the southern States. She has been across into Mexico at Tia Juana and Mexicali, and has visited all the central, western and northern states, all the western Canadian provinces, Montreal and Quebec City.

She is a member of the Ladies Curling Club, a member of the Bowling Club, and is an enthusiastic softball player.

When Miss St. Louis came to Drayton Valley, six switchboards were in operation, with 14 operators, 1 commercial clerk and one chief operator. There were about 400 telephones. At the time of the changeover to dial system seven boards are in use, 16 operators are employed, 1 commercial clerk and 1 chief operator. There are about 1200 phones in use.

Germaine will remain in Drayton Valley with AGT. She will transfer from chief operator to commercial clerk, when the changeover takes place at the beginning of next week.

District Personalities

MR. JOHN E. BUCKLEY

Photo by Curt's Studio

With the switchover to the telephone dial system and new telephone numbers being on the minds of Drayton Valley and district residents at this time it might be well to look at some of AGT's personnel, starting with the man who is looking after the automatic dial system changeover, Mr. John E. Buckley.

Mr Buckley was born in Edmonton, in July, 1939. He attended West Glen High School there and after graduating he worked for Donovan Radio Engineers, in Edmonton, until he went to work for the Alberta Government Telephones in 1944. In 1949 AGT transferred him to

Wainwright as an Inspector. In 1953 he returned to Edmonton as Inspector and in 1958 he was sent out to Evansburg to open up the first district office for this area. Previously Drayton Valley, Evansburg and other nearby communities has been handled from the Edmonton office.

He was in the Evansburg district office for four years, until he was sent to Drayton Valley this past summer when AGT decided to make Drayton Valley the district office. While in Evansburg Mr. Buckley was captain of the Volunteer Fire Brigade, he served a term as councilman.

(Cont. page 15, col. 3.)

A.G.T. DIAL PHONES

Zero hour for the cut-over from the present telephone system to dial system in this district is 12:01, one minute after midnight, Sunday morning, next, December 18th.

When this district goes on dial it will be the first step towards eventual linking with dial systems all over the North American continent, so that, when the complete plan is finally put into operation, Drayton Valley residents will be able to dial anywhere on this continent that has the dial system in operation.

A spokesman for Alberta Government Telephones estimated it would be perhaps two years before country-wide dialing would become effective in Drayton Valley. The system is known

as Direct Distance Dialing. It will become effective in Red Deer sometime in April, 1961. Red Deer will then become one of the "homeing" centres in the province. All other dial exchanges will then "home" on these centres. There will be five in Alberta, Red Deer, Calgary, Lethbridge, Grande Prairie and Edmonton.

The reason for the three prefix numbers in front of the telephone numbers is for Direct Distance Dialing. When it is put into effect, a wider range of selectivity for dialing of numbers is given with number prefix system instead of the present letter prefix. Drayton
